Reports To:	Director of Nursing		
Work Location:			
Primary:	Residential Unit		
Secondary:	Wellness Clinic		

Scope of Practice:

The Registered Nurse provides high quality, evidenced based nursing care for residential clients at HopeWay Foundation. Registered nursing care is defined by North Carolina state law and regulations, inclusive of the Nurse Practice Act. Registered nursing care is provided in accordance with HopeWay Foundation established standards of care, policies, procedures, and protocols. The Registered Nurses practices under the general direction of the Director of Nursing (in consultation with the Director of Medical Services).

Summary:

The Registered Nurse provides comprehensive (*mental and physical health*) nursing care that encompasses the full scope of nursing practice consisting of skillful assessment, treatment planning, health teaching and counseling, implementation of care, evaluation and identification of outcomes, reporting and recording all aspects of care, and collaborating with other health care providers. The Registered Nurse provides for the maintenance of a safe and clean working environment and performs all related job responsibilities in a safe and effective manner. The Registered nurse assists in delegation, supervision, teaching, and evaluation of those who perform nursing functions and/or are administering nursing services.

Primary Responsibilities:

- Performs initial and on-going nursing assessment
- Collects subjective and objective data pertinent to client’s biophysical, psychological, sociological, and spiritual health.
- Verifies and analyzes assessment data to determine actual or potential responses to health conditions, anticipate emergent changes, and evaluate outcomes of care.
- Identifies client’s needs and initiates or participates in multidisciplinary planning of care that includes determining, prioritizing, and modifying nursing interventions based on realistic and measurable goals and outcomes.
- Implements care in accordance to a prescribed plan, consistent with an environment conducive to best practices of client health and safety.
- Coordinates delivery of nursing care by assigning, delegating, and supervising nursing activities of other licensed and unlicensed personnel in accordance with legal and policy parameters. Monitors duties performed by Licensed Practical Nurses and Behavioral Health Technicians, under the general direction of the Director of Nursing.

HopeWay Job Description: Registered Nurse

- Evaluates progress and client responses toward attainment of identified outcomes.
- Analyzes effectiveness of nursing care and modifies plan of care based on upon changes in the client's condition.
- Reports and records all pertinent clinical information that accurately describes symptoms, observations and all aspects of nursing care on the appropriate client record, and or other clinical documents, within a time period consistent with the client's need for care.
- Directs and documents communication information to other persons responsible for, or involved in, the care of the client within a time period consistent with the client's need for care.
- Collaborates and works cooperatively with multi-disciplinary team.
- Teaches and counsels clients regarding health status and health care by providing medical information and education to clients following established protocols and procedures.
- Manages the delivery of nursing care through on-going availability, appropriate delegation, teaching (which may include competency validation), and evaluation of other licensed and unlicensed personnel including Licensed Practical Nurses and Behavioral Health Technicians, under the general direction of the Director of Nursing.
- Administers nursing services in such a manner that is congruent to identified standards, policies and procedures that promote safe and effective nursing care.
- Accepts responsibility for self and individual nursing actions, competence, and behaviors.

Performance Requirements:

- Synthesizes information obtained from client interviews, behavioral observations, and other available data to complete thorough nursing admission assessments as well as on-going routine client assessments which address comprehensive data including psychiatric, substance abuse, physical, functional, psychosocial, emotional, cognitive, sexual, cultural, age-related, environmental, spiritual, and economic.
- Identifies client behaviors and special needs associated with client population. Completes initial and ongoing individualized safety assessments to determine frequency and degree of client observation.
- Identifies and anticipates psychiatric emergencies and behavioral disruptiveness. Provides ongoing assessment of client behaviors that may reflect a significant risk of harm to self or others and/or behaviors that significantly compromise the ability of clients to participate in treatment.
- Assesses suicide risk on admission, at discharge, and when clinical concerns arise that warrant an assessment. Recognizes behaviors that warrant further assessment and communicates in timely manner. Prioritizes safety planning and follows proper policy and procedures to manage suicide risk when needed.
- Recognizes emergent and non-emergent medical needs and takes immediate action following the emergency management procedures and/or communicates client assessment and medical concerns to provider in a timely manner.
- Assesses and documents neurological status of clients through neurological assessments as indicated or ordered by provider.
- Incorporates effective clinical interviewing skills that facilitate development of a therapeutic relationship.
- Prioritizes data collection activities based on the client's immediate condition while anticipating needs.
- Uses therapeutic principles to understand and make inferences about client's emotions, thoughts, behaviors, and condition.
- Participates and initiates individualized treatment plans for the care, treatment, and service of clients that reflect the assessed needs, strengths, preferences and goals of each client.
- Executes individualized treatments as determined by licensed health care providers.
- Adheres to discharge plan, while assisting client with discharge transition. Completes

HopeWay Job Description: Registered Nurse

- client discharge based on Discharge policy and procedure.
- Accepts and transcribes verbal, telephone, and written orders for licensed healthcare providers.
- Transcribes and administers medications as ordered by licensed health care provider. Assesses and records responses and any reactions, based on the Medication Administration policy and procedure.
- Adheres to Medication Management policy and procedure in handling, storing, administering, monitoring, and managing client medications from admission to discharge.
- Initiates and/or completes diagnostic tests per licensed healthcare provider order. Collects specimens by non-invasive and invasive techniques, and preserves specimens for testing.
- Completes laboratory and radiology requisitions and other specialized test forms. Files returned diagnostic reports after licensed healthcare provider review.
- Maintains client files and prepares and assembles file prior to client appointments.
- Maintains medical supplies and equipment. Ensures proper functioning of equipment by visual inspection and routine testing. Assists with ordering and distribution of medical supplies and equipment.
- Performs functions related to client care such as, for example, performing first aid, sterile technique, basic wound care, and suture/staple removal, pulse oximetry, humidification therapy, oxygen therapy via mask or nasal cannula, application of basic orthopedic devices, ear washes and/or EKGs.
- Assists licensed healthcare providers with examinations and treatments by selecting and passing instruments, providing support to client, and/or draping and other assistance as directed/required.
- Intervenes quickly and appropriately utilizing effective verbal de-escalation skill and following proper procedures and protocol in the event of psychiatric or behavioral emergencies.
- Maintains a safe and therapeutic environment for clients and staff by following and implementing best safety practices including client observation level, infection control, and search and seizure policies.
- Evaluates client's progress and response to nursing actions and documents evaluation in the medical record.
- Communicates current healthcare status and any changes in client status, including abnormal diagnostic test results, to healthcare providers, and notifies Director of Nursing and on call provider of any acute changes in client status.
- Documents client's symptoms, observations, and therapeutic treatments in client record.
- Generates Medication Administration Record (MAR) upon client's admission, and updates and revises MAR as orders are changed.
- Reviews, explains, and clarifies licensed healthcare provider orders with client.
- Promotes client's ability to make informed decisions and assists the client to reach an optimum level of health functioning in self-care.
- Provides information and education regarding health status and health care to clients by way of individual and group education sessions, following established protocols and guidelines.
- Identifies barriers to learning and evaluates effectiveness of teaching.
- Serves as the client's advocate, with attention to each client's right and responsibilities.
- Communicates with client's families after consultation with licensed healthcare providers, and documents communication in client medical record.
- Participates in orientation and competency validation of licensed and unlicensed personnel including Licensed Practical Nurses and Behavioral Health Technicians, under the general direction of the Director of Nursing related to specific job assignments.

HopeWay Job Description: Registered Nurse

- Delegates responsibility and/or care to licensed and unlicensed personnel including Licensed Practical Nurses and Behavioral Health Technicians, under the general direction of the Director of Nursing.
- Supervises, manages, and evaluates client care delivery as charge nurse.
